

Custom Products

CTG has more than 30 years of experience producing components of all types from many different kinds of elastomer.

Examples of the types of products we have manufactured include:

- A 6-in. thick, 55-durometer Viton® seal with an 18-in. O.D. and a 1-in. cross section
- A 60-in. diameter kip seal made from FFKM Perfluoroelastomer
- A 7-ft square phenolic pad with 29 holes

If you have a challenging problem, then call us, and our in-house engineering experts can design a solution for you.

Types of Custom Products

We have the machinery, the materials, and the expertise to manufacture the parts you need.

Commonly requested custom parts include:

- Bellows
- Bulbs
- Bumpers
- Bushings
- Check balls
- Connector seals
- Convoluted boots
- Cups
- Diaphragms
- Gaskets
- Grommets
- Inflatable seals and shapes
- Isolators
- Lip seals
- Mechanical seals
- Molded gaskets
- Protective boots
- Special plugs
- Special seals and shapes
- Valve seats, special seats

Examples of our custom products

Applications

- Medical
- Oil and gas
- Semiconductor
- Aerospace

Benefits

- More than 30 years of experience working with elastomers
- We will work along side you to build your product
- High-quality and cost-effective solutions
- Same day service available

Trademarked brand or product names mentioned in this document are the property of their respective owners. Although reasonable effort has been made to ensure that the information in this document is accurate, it is subject to change at any time without notice. CTG assumes no liability resulting from errors or omissions in this document. Data is provided for general illustrative purposes only; it is not to be used to create specification sheets for particular parts that CTG manufactures. It is the customer's responsibility to confirm that a selected material is appropriate for a particular situation, and to evaluate parts before using them. Furthermore, because elastomeric parts have a finite lifetime, CTG strongly recommends that customers inspect such parts frequently and replace them when necessary.
